## ABOUT ME

Hello! I am Subham Das, a skilled web developer who is passionate about building useful and interesting websites. I specialize in creating user-friendly interfaces that provide outstanding user experiences since I have a strong foundation in web technologies and a good eye for design.

## EXPERIENCE

### Zee Cinema Clone Responsive Website

Newton School Project.

August 2023- September 2023

The Zee Cinema is an OTT website where we can see a list of various content like movies, and websites, we can watch those, can add any content to the watch list, there also login logout, and account functionality are included...

Tech Stack: Html, CSS, js, react

### Image Website

Newton School Project.

June 2023

The Image website is like a website that has almost all the features that an image website has. like we can browse an image, search images, see all the details of the image, and download the image.

Tech Stack: Html, CSS, js.

### Movie Booking Website & StockMarket Dashboard

Newton School Project

March 2023- May 2023

The movie booking website like a website where we can see the list of the movies , details of the movies and book the movies also. And the Stock market Dash board like a website where we can see the stock and we can save the stocks..

Tech Stack: Html, CSS, js.
